🌐 Portfolio

📍 Islamabad/Rawalpindi, Pakistan

SUMMARY

ISC2 Certified (CC) cybersecurity graduate with enterprise penetration testing internship experience. Proficient in vulnerability assessment, web application security, OSINT, threat analysis, and incident response. Pursuing CEH. Open to SOC Analyst, Penetration Tester, and Cybersecurity Engineer roles.

EDUCATION

Capital University of Science & Technology (CUST)

Bachelor of Science in Computer Science

- HEC NCST — **91st Percentile** nationally | **Dean's Honour Roll**

2022 – 2026 (Expected)

Islamabad, Pakistan

EXPERIENCE

Corvit Networks Pvt Ltd

Cybersecurity Intern — Penetration Testing

- Executed **vulnerability assessments** across 5+ target systems using **Metasploit, Nmap, Nessus, Burp Suite, and Nikto**; identified 10+ **OWASP Top 10** vulnerabilities (XSS, SSRF, SQLi) and delivered structured remediation reports.
- Conducted **OSINT and active reconnaissance** on 3+ engagements via **Maltego, Shodan, and theHarvester**; performed controlled exploitation, credential auditing with **SQLMap and Hashcat**, and traffic analysis using **Wireshark**.

Aug. 2025 – Sep. 2025

Rawalpindi, Pakistan

Servixer LLC

Technical Transcriber

- Promoted to full-team contributor within 3 months; exceeded daily quotas and earned performance bonuses — built precision documentation and QA skills directly applicable to security incident reporting.

Feb. 2024 – Aug. 2024

Islamabad, Pakistan

Mighty Knights

Customer Service Representative

- Resolved 50+ weekly inquiries under HIPAA/CMS compliance requirements using CRM systems — skills transferable to SOC incident ticketing and stakeholder communication.

May 2023 – Oct. 2023

Islamabad, Pakistan

PROJECTS

Cybersecurity Awareness Training Platform | Python, Flask, PostgreSQL, HTML/CSS/JS | GitHub

2025 – Present

- **Final Year Project:** Full-stack bilingual (Urdu/English) platform with simulated **phishing campaigns**, gamified learning paths, progress tracking, and admin dashboards for cybersecurity awareness training.

Secure Random Password Generator | Python, Cryptography, CLI | GitHub

2024

- Python CLI utility generating **cryptographically strong passwords** using the secrets module; supports configurable length and character sets for enterprise password policy enforcement and security awareness demos.

SKILLS

Cybersecurity: Penetration Testing, Vulnerability Assessment, Vulnerability Management, Threat Intelligence, Incident Response, OSINT, Red Teaming, Log Analysis, SIEM, OWASP Top 10, MITRE ATT&CK, CVE Analysis, Network Security, Active Directory, Threat Modeling

Security Tools: Metasploit, Burp Suite, Nmap, Wireshark, Nessus, Kali Linux, SQLMap, Nikto, Hashcat, Hydra, John the Ripper, Gobuster, Maltego, Shodan, theHarvester, Netcat, Aircrack-ng, SecurityTrails

Languages & Scripting: Python, Bash, SQL, JavaScript, C/C++ **Dev & Cloud:** Flask, React.js, Docker, Git, PostgreSQL, MongoDB, MySQL, REST APIs, AWS (Basics)

CERTIFICATIONS & ACHIEVEMENTS

ISC2 CC — Certified in Cybersecurity (Feb. 2025) | CEH — EC-Council (In Progress) | **Cybersecurity Certificate** — NSU Islamabad, Grade A (2023)

HEC NCST: 91st Percentile | **Dean's Honour Roll** — CUST | **Internship Certificate** — Corvit Networks (2025)
